Remember the 3 golden rules!

- 1 If the 2 bells in front of you are called to swap places:
 - *stay in the same place in the change (i.e. ring at the same speed)*
- 2 If you are called to follow a different bell:
 - *ring slower at the next handstroke and move up a place and allow the bell you are swapping with to move “down” in to the place you have vacated*
- 3 If a bell is called to follow you:
 - *ring quicker at the next handstroke to get in front of the bell being called to follow you*
